

Iteration 5: Administer User Profile

Use Case Analysis

Administer User Profile - Analysis Classes

- Entity Classes: User
- Boundary Classes: AdministerProfileInterface, DatabaseInterface
- Control Classes: AdminProfileController, UserController

Sequence Diagram

Mapping Between Analysis and Implementation Elements

Analysis Classes	Methods	Implementation Elements
User	administrateUserProfile()	/models/user.js, /public/app/services/AdministratorUserProfileService.js
AdministerProfileInterface	administrate()	/views/partials/AdministratorPage.jade /views/partials/AdministratorUserProfile.jade
UserController	getAllActiveUsers() getAllInactiveUsers()	/controllers/userController.js
AdminProfileController	validation()	/public/app/controllers/AdministratorUserProfileController.js
DatabaseInterface	updateUserAccountStatus() updateUserPrivilegeLevel()	/db/table_users.js
